Box-O-Matic

"Mobile transport system"

The very popular box-o-matic is experiencing a revival! Visser fully redesigned the popular mobile (de)stacking machine. The compact internal transport system for high and low boxes is the most flexible system in the market. This system can be used in your current greenhouse, but can be used in your future greenhouse expansions as well.

“ Mobile destacking & stacking system for boxes. ”

Why choose the Box-O-Matic?

- ✓ Flexible mobile transport system
- ✓ To use in every kind of greenhouse
- ✓ For both destacking and stacking
- ✓ No special infrastructure or rails required

Box-O-Matic

"Mobile transport system"

Features

- The Box-O-Matic runs with a capacity of 1000 boxes per hour.
- For both destacking and stacking of high and low plant growing boxes.
- Robust design for a long-life cycle of the machine.
- No special infrastructure or suspended rails required in your greenhouse.
- The machine is available in Diesel and Gas.
- Operated by a steering wheel and user friendly control panel.
- The operator can sit on either left side of right side for a good overview of the process.
- Low ground pressure due to caterpillar tracks.

Technical specifications

Motor	Diesel or Gas 17kW
Weight	ca 2400kg
Dimensions L x W x H	4800 x 1650 x 1750mm (without boxes)
Capacity	Approx. 800-1000 boxes/hour when running uninterrupted production
Driving of the machine	Hydraulic driven
Destacking	Double destacking side by side
Destacking mechanism	By means of hydraulic cylinders
Platform	Suitable for 2 x 3 stacks of boxes
Loading of platform	By means of forklift with double case clamp (2 x2 or 2 x 3) with a gap between the 2 rows of stacks
Height of stack	Max 16 boxes
Steering	By means of 1 wheel in the front
Caterpillar	Steel caterpillar tracks
Dimension of the boxes	665 x 445 x 130/180mm
