## Irrispray-SA/F

"Semi-automatic irrigation & spraying"

Irrigation and crop care are the basic needs of all plants. Through the years, Visser has accumulated a lot of expertise in this area and has developed a wide range of spraying and watering booms. The Irrispray-SA/F is a mobile irrigation and spraying system which can be manually transported from bay to bay via the center path. The height of the boom above the plants is adjustable, so it can be transported from greenhouse to greenhouse. Pesticides can be applied by means of a proportional dosing unit.

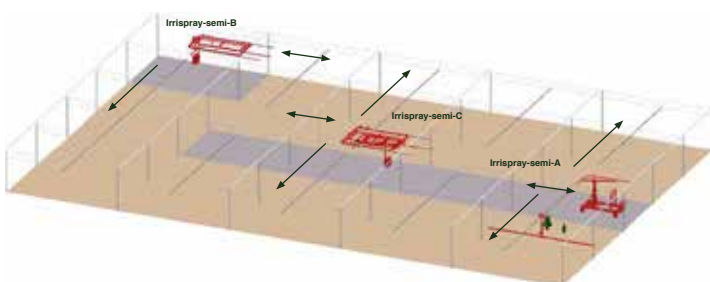

Why choose the Irrispray-SA/F?

- ✓ Semi automatic
- ✓ Transportable system
- ✓ For seasonal crops

“

For an efficient and flexible watering operation.

”

# Irrispray-SA/F

"Semi-automatic irrigation & spraying"

## Features

- Semi-Automatic system.
- Spraying & Watering.
- Mobile on Middle + Front path.
- Transportable.
- Standing system.

## Technical specifications

Max house length	65 meter
Max house width	9,60 meter
Number of rails	1 or 2
Speed	Min. 5m/ min. Max. 30m/ min.
Height between rail and product	Min. 1500 mm Max. 3000 mm
Contain of reservoir	10 litres
Temperature area	5 - 40 °C
Motor rating drive unit	0,18 kW
Motor rating transport trolley	N / A
