## Seeder SA-10

"Semi-automatic step seeder"

The Seeder SA-10 is a stand-alone step seeder with stainless steel tray support to move the trays. The step mechanism operates by means of a step comb, which is exchangeable for every tray size. Equipped with a dibbling die, which presses seeding holes before sowing. Completely pneumatic control, no consumption of electricity. Suitable for trays with max. dimensions L x W = 600 x 400 mm. Maximum capacity is approximately 25-30 cycles per minute.

Why choose the Seeder SA-10?

- ✓ Easy seeding
- ✓ Suitable for many different seeds
- ✓ Easy changing to different tray size
